

Quad Bikes

Wicked Distribution is the home of Hawkmo Mini Quad Bikes, 50cc 2 stroke and 110cc 4 stroke Mini Quadards are also known as Mini Moto Quad Bikes and pocket bikes these mini Mini Quads are awesome fun.

Mini Quad bikes require a 2 stroke fuel mixture where as a 4 stroke quad bike will take straight unleaded fuel a 2 stroke mini quad bike requires you to mix the fuel in a provided container.

A Throttle Regulator provides total control over the Versatile 125cc 4-stroke Air-cooled Engine by limiting speed to as low as 10 mph, or all the way up to 35 mph and anywhere in between, your choice!. A Starter/Brake Interlock prevents accidental starting, and a Lanyard Safety Cutoff will shutdown the engine if separated from the quad.
